

# ***Sedum* Section *Telephium* 2004-2006**

## **An RHS Invited Trial**

### **Final Report**

#### **Objectives:**

- To judge for garden worthiness and to recommend the Award of Garden Merit 🏆 to those entries considered excellent garden plants.
- To compare and assess a range of species and cultivars within the section *telephium* for use in the border as garden decoration.
- To establish correct nomenclature.
- To produce a permanent record through herbarium specimens, photographs and written descriptions for the RHS Herbarium at Wisley.

#### **Entries:**

There were 82 entries in the Trial, submitted as plants by nurseries and gardens in the UK and the USA.

#### **Cultivation:**

Entries were sourced in autumn 2003, plants were hardened off in March 2004 and on 6 April 2004 three plants of each entry were planted on a site previously tractor spaded in autumn 2003. Entries were planted in rows with 55cm between plants and 75cm between the rows.

Plants suffering from powdery mildew and oedema were cut down in August 2004; the trial was subsequently sprayed fortnightly with a fungicide against powdery mildew, rust and leaf spot.

#### **Judging:**

The Floral Trials Subcommittee assessed entries in 2005 and 2006, using the following criteria:

Foliage, habit, flower, length and season of flowering, character, attractiveness to bees and butterflies.

The Award of Garden Merit 🏆 was conferred on nine entries, two of which were subject to nomenclatural resolution and one subject to availability. The awards for these three cultivars cannot be published until problems have been solved.

#### **Findings:**

High soil fertility resulted in many plants growing up to 50% taller than the norm causing them to flop, staking only being applied where they encroached on their neighbours. The front plant of each entry was given the 'Chelsea Chop', i.e. cut back hard, towards the end of May 2005 and 2006, generally producing a bushier habit not requiring support. Results were generally good, with *S. telephium* subsp. *ruprechtii* and some selections and hybrids of *S. telephium* subsp. *telephium* responding well, although gardeners might not want to delay the filling of a space at the front of the border or flowering in this way.

A fungal pathogen, *Phoma telephii*, was found on *Sedum telephium* 'Sunkissed' and *Sedum telephium* 'Black Emperor' causing die back. Affected stems should be cut out and burned as sticky spores spread by rain splash.

Larvae of the Sedum Ermine Moth, *Yponomeuta vigintipunctata* appeared on plants in the Garden in 2006 but did not affect Trial entries. Larvae produce a conspicuous communal web and feed on foliage, leading to defoliation. Affected plants should be pruned back hard removing damaged stems and occupied webs cut out and burned.

Communal web of the Sedum Ermine Moth

Die-back on *Sedum telephium* 'Black Emperor'

Many nomenclatural corrections were made and are detailed in the index. Further work to establish correct identity and nomenclature of *S. spectabile* cultivars, a number of which sported during the trial, will be required.

Late arrivals *Sedum* 'Lajos' (81) and *Sedum* 'Beka' (82) were referred for further assessment, as was *Sedum telephium* 'Black Emperor'.

### Award of Garden Merit Summary Of Entries

#### ***Sedum cauticola* 'Lidakense' AGM (H4) 2006**

Sent by RHS and Perryhill Nurseries, Hartfield, East Sussex TN7 4JP, widely available.

Votes 13-1, Trial number 62 and 80

Prostrate habit, flattish mound, 15 x 65cm wide. Foliage Yellow Mid Green 137C with strongly glaucous 189B bloom, upper leaves and bracts with Purple 187D flush; especially at tips. Stem green on underside, Grey Brown 197A on upper, this very finely mottled and striated Red 183D. Bud greenish white streaked Pink 71B, petal Pink 186B, carpel Red 187D becoming greenish white streaked red. Flower 11mm. Flowering from 11 September to 18 October 2006.

*Excellent front of border plant; attractive in bud; striking glaucous foliage.*

***Sedum 'Matrona'*** AGM (H4) 2006

Sent by Hardy's Cottage Garden Plants, Freefolk Priors, Whitchurch, Hants RG28 7NJ, The Beth Chatto Gardens Ltd, Elmstead Market, Colchester, Essex CO7 7DB and Howard Nurseries, Wortham, Diss, Norfolk IP22 1PX

Votes 14-2, Trial numbers 37,38 and 39.

Flowering from 8 August to 27 September 2006

100 x 200cm wide, unusually flopped badly on over fertile soil. Foliage Yellowish Mid Green 137C with fine dark red, almost black, edge, basal half of midrib Red 183C. Stem green, flushed Greyed Red 183D especially in inflorescence, deeper Beetroot Red 187A at stem base, light bloom. Bud greenish white tipped Pink 182D, petal white tipped Pink 62B, carpel Pink 62C, styles slightly darker 62B, becoming greenish white with dark pink styles, flower 14mm.

*One of the best; display carries on after flowers are over.*

***Sedum 'Mr Goodbud'*** AGM (H4) 2006

Sent by Luc Klinkhamer, PO Box 350, 2180 AJ, Hillegom, The Netherlands; will be available from Cotswold Garden Flowers, Sands Lane, Badsey, Evesham, Worcestershire WR11 5EZ.

Votes 9-1, Trials number 60A

Upright and tight, 60 x 60cm. Foliage Yellow Green 146B-C, trace of dark red on leaf edge and teeth, fairly pliant, mostly flat to slightly convex upper surface. Stem green flushed Pinkish Purple 185C with bloom. Bud white to very pale pink; petal white base, Pink 66C; carpel Pink 66D tipped darker Pink 66A. Flower 12mm. Flowering from 4 August to 25 September 2006.

*Good dark stems, sturdy; outstanding, excellent pink flower and height.*

***Sedum telephium 'Marchants Best Red'*** AGM (H4) 2006

Sent by and available from Marchants Hardy Plants, 2 Marchants Cottage, Ripe Rd, Laughton, East Sussex BN8 6AJ.

Votes 10-0, Trial number 55.

Upright and neat, 60 x 70cm wide. Foliage Yellow Green 146D, strongly flushed Red 187A/B, less so on lower leaves. Stem Dark Red 187A. Grey Green calyx, sepals Pink 57D, no petals or stamens, carpel strong Reddish Pink 60A. Flower 4mm. Flowering from 6 August to 29 September '06.

*Glossy foliage, better autumn colour than 'Red Cauli', very effective with other plants; excellent.*

***Sedum telephium* 'Purple Emperor'** AGM (H4) 2006

Sent by and available from Marchant's Hardy Plants, 2 Marchant's Cottages, Mill Lane, Laughton, E Sussex BN8 6AJ, widely available

Votes 10-0, Trials number 17

Upright to slightly flopped, widely branched, 60cm x 100cm wide. Foliage, thick and very brittle, Mid Green 137A, very strongly bronzed Dark Purple, darker than 187A, almost 200A. Stem green at base and beneath nodes, strongly flushed Red 187B-C elsewhere. Bud white base with Pink 187D tips, petal off white with Red 187C mid petal, carpel Buff 161C flushed Red 187D, becoming Red 187C. Flower 8mm. Flowering from 25 July to 18 September 2006.

*Compact, standing well and not sprawling despite over fertile soil; attractive floral structure and dark leaves.*

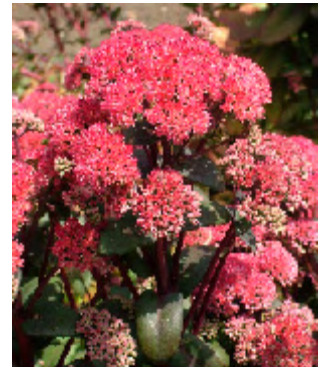

***Sedum telephium* 'Red Cauli'** AGM (H4) 2006

Sent by and available from Marchants Hardy Plants.

Votes 7-2, Trial number 51

Usually upright, flopping on over fertile soil, 70 x 90cm wide. Thick foliage Dark Green 147A (lower leaves much paler) with dark Purple Brown 187A flush, basal half of midrib Red 187D. Stem Red 187B-D, bud Greenish white, tipped Dusky Pink 182C, carpel Red 185B. Flower 5mm, lacking petals and stamens. Flowering 30 July to 25 September 2006.

*Wonderful red stems; outstanding red flowers still good after going over; attractive small flower.*

The following entry has been awarded an AGM **subject to availability and cannot be published until queries have been resolved:**

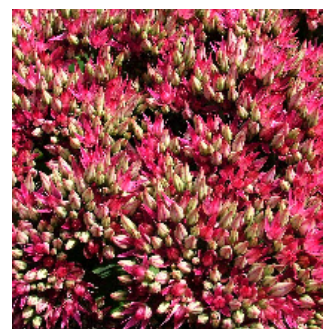

***Sedum* 'Class Act'** AGM **subject to availability**

Sent by Terra Nova Nurseries, 10051 S. Macksburg Rd, Canby, OR 97013, USA.

Votes 9-2, Trial number 78.

Upright and tight, heavily branched, 45 x 50cm wide. Foliage Mid Green 137C. Stem Green, Grey Brown 199A to dark Grey Green 197A in inflorescence. Light bloom on stem and foliage. Bud Greenish white. Petal Purplish Red 71A/B. Carpel reddish white streaked Purplish Red 71B, long styles darker 71A. Flower 15mm. Flowering from 28 July to 12 October 2006.

*A unique deep burgundy colour; flower colour and grey buds make a very effective combination, compact and stable.*

**The two following Awards are subject to nomenclatural resolution and cannot be published until problems have been resolved:**

***Sedum telephium* 'Karfunkelstein' AGM subject to nomenclatural resolution;** Raised by Ernst Pagels, (originally named 'Drachenblut'), date of introduction unknown. Sent by Phoenix Perennial Plants, Paice Lane, Medstead, Alton, Hants GU34 5PR and Binny Plants, West Lodge, Binny Estate, Ecclesmachan Road, Nr Broxbourn, West Lothian EH52 6NL.

Votes 11-1, Trials numbers 45 and 76.

Upright mound, thickly branched, 50 x 70 cm wide. Foliage Green 147B, upper leaves strongly flushed Beetroot Red 187A, with glaucous bloom. Green, strongly flushed dark Red 187B, covered with dull bloom. Bud white base, dark Pinkish Red 187D, petal reddish white, carpel Dusky Pink 186B, darkening to 187D. Flower 15mm. Flowering from 31 July to 18 September 2006

*Very good compact habit, no flopping; perfect for the modern small garden.*

early foliage

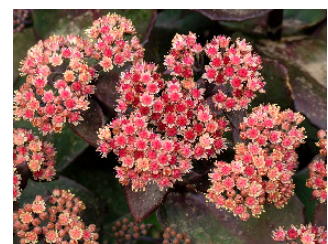

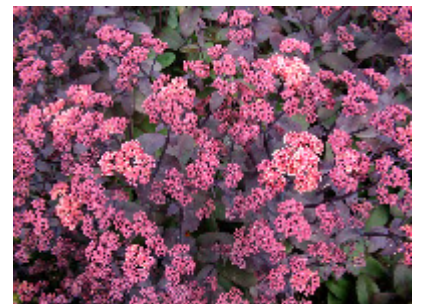

***Sedum telephium* 'Xenox' AGM subject to nomenclatural resolution.** Date of introduction unknown.

Sent by Luc Klinkhamer, will be available from Cotswold Garden Flowers

Votes 10-0, Trial number 25B.

Habit semi upright to flopped, 60 x 100cm. Foliage Yellowish Mid Green 137C, upper leaves heavily tinged Beetroot Red 187A on upper surface, paler on underside. Stem green, strongly flushed Dark Red 187A especially on upper portion. Distinct bloom on leaf and stem. Bud white at base Red 185B from mid to tip, petal white with a tinge of red, carpel white flushed Pink 58C, darker 58B at tip, becoming Vivid Reddish Pink 57A. Flower 8mm. flowering from 14 August to 25 September 2006.

*Incredible colour, very dark bud, large leaves, harmonious colour range from bud to flower; neat habit.*

## **AGMs reconfirmed in 2006**

***Sedum spectabile* AGM (H4) 1993**

Sent by and available from Howard Nursery, widely available.

Votes 14-2, Trials number 24.

*Standing up well; good pink flower heads and attractive foliage; stable with no sports.*

***Sedum 'Herbstfreude'* AGM (H4) 1993**

Raised by Georg Arends, introduced to the UK in 1952 by Alan Bloom. Sent by Perryhill Nurseries Ltd, Hertfield, East Sussex, TN7 4JP, Howard Nursery and Hardy's Cottage Garden Plants.

Votes 7-0, Trial numbers 46, 47 and 48.

Flowering from 13 September to 20 October 2006.

*Very vigorous and healthy; late flowering, excellent foliage; looks good even after flowering has finished.*

***Sedum 'Ruby Glow'* AGM (H4) 1993**

Raised by Georg Arends, named by Alan Bloom and introduced in the UK in 1952. Syn. *S. robustum*

Sent by The Beth Chatto Gardens, widely available.

Votes 15-1, Trials number 61.

Flowering from 12 August to 21 September 2006

*An excellent garden plant; set off by dark leaves; good front of border plant.*

***Sedum 'Vera Jameson'* AGM (H4) 1993**

Sent by Southcombe Gardens, 2 Willens Cottages, Kenton, Exeter, Devon EX6 8H4, good availability.

Votes 11-0, Trial number 72.

Flowering from 22 August to 22 August to 29 September 2006

*Another good front of border plant.*

***Sedum 'Bertram Anderson'* AGM (H4) 1993**

Sent by Phoenix Perennial Plants, widely available.

Votes 14-0, Trial number 77.

Flowering from 26 August to 21 September 2006

*Interesting for a long period, normally has good dark foliage, pale here due to over rich soil.*

**Sunset List (recommended to be rescinded at the AGM review in 2012):**

*Sedum telephium* subsp. *maximum* 'Atropurpureum'
